

## Ohio Administrative Code Rule 3701:1-37-31 Inspections.

Effective: October 1, 2014

---

(A) Each licensee shall afford the director at all reasonable times the opportunity to inspect category one or category two quantities of radioactive material and the premises and facilities wherein the nuclear material is used, produced, or stored.

(B) Each licensee shall make available to the director for inspection, upon reasonable notice, records kept by the licensee pertaining to its receipt, possession, use, acquisition, import, export, or transfer of category one or category two quantities of radioactive material.
